

National Certificate in Civil Plant Management Training Plan

The National Certificate in Civil Plant Management is a Level 4 qualification, comprising 64 credits.

Qualification Requirements

All units in the core compulsory section must be completed.

Instructions

Two sections are also provided at the end of the training plan to specify appropriate training providers if off-job training is to be carried out, and which assessors will be utilised. An indication of the completion quarter for the workbook should also be given. This form is to be returned to InfraTrain with your Training Agreement.
